

MEDITECH 5.66 Multidisciplinary Discharge Success Series

Biographies

GREG HARTMAN, RN - Avera Health (Sioux Falls, SD)

As a clinical informaticist at Avera Health, Greg Hartman provides direct support to 15 Avera facilities for the Patient Care Services (PCS), Electronic Medical Record (EMR), electronic Medical Administration Record (eMAR), Bedside Verification (BV), Prescription Management (RXM), Physician Documentation (PDOC), Order Entry/Provider Order Management (OE/POM), and Provider Workload Management (PWM) applications. Greg led the MEDITECH clinical implementation for many hospitals in the region and also supports Meaningful Use and quality initiatives at the health system. Additionally, Greg joined a 5.x Discharge Best Practices customer panel session during MEDITECH's 2014 Nursing and Home Care Forum.

PATRICIA MULBERGER, RN - Kalispell Regional Health Center (Kalispell, MT)

As Clinical Informatics Quality Supervisor at Kalispell Regional Health Center and Western Region Director for American Nursing Informatics Association (ANIA), Patricia (Pat) Mulberger builds and implements clinical modules for all four facilities within the health organization. In just two years, she completed implementation of eMAR, PCS, BMV and is close to completing EDM, pDOC, and CPOE.

Within the last 10 years Pat, a writer and public speaker, has had several articles published in the MUSE International Newsletter and spoke at many conferences, including the recent 2012 ANIA-CARING International Conference and MEDITECH's Nurse and Home Care Forum where she presented "Teaching BCMA, The Splash Effect." Pat also recently joined an Interdisciplinary Discharge Best Practices customer panel session during MEDITECH's 2014 Forum.

Pat obtained her certification in Nursing Informatics and completed a Masters in Nursing with a clinical informatics focus. She is an active ANIA board member.

KERRI L. NASH - Project Coordinator, MEDITECH Client Services (Westwood, MA)

Since joining MEDITECH in 2006, Kerri has held several positions supporting and implementing MEDITECH's physician products. Kerri has worked with customers throughout the United States to assist with the planning, roll-out, and LIVE support of MEDITECH's Medication Reconciliation and Discharge solutions. As a current member of the Strategic Customer Optimization Team, Kerri serves as a customer advocate, helping hospitals realize optimal usage of their MEDITECH products.

Prior to MEDITECH, Kerri worked for several years as a Clinical Research Assistant with Harvard Medical School.
