## *Continuing Care Collaborative*

# NEWSLETTER

*Please join us for our 2nd bi-annual Continuing Care Collaborative event February 23rd, 2021 1pm est. Google invite to follow.*

### **How it all began...**

In 2020 we established a Continuing Care Collaborative. Our vision for the collaborative was to allow our members to share information and resources, create relationships, advance nursing informatics throughout healthcare organizations and to enhance safety and efficiency of long term care nursing practices.

### **The recap...**

We held our first successful event on July 21, 2020. We heard from a few of our Continuing Care organizations who shared what they had accomplished within the Meditech system. We touched on Expanse migration and optimization plans and even some advances in telemedicine during these unprecedented times. Meditech used the opportunity and shared some of our current, scheduled and future initiatives within the Continuing Care software. Finally, the collaborative ended with a roundtable discussion regarding the success stories and challenges of navigating Covid-19 as well as Proactive Preparedness to be ready for surveyors.

### **Opportunity Knocks...**

With the next event around the corner we are looking for a few volunteers to share some initiatives or projects you and your organization are working on. We are also hosting another roundtable discussion. Please contact Leah Fungi, Senior Specialist [lfungi@meditech.com](mailto:lfungi@meditech.com) if interested in participating or if you would like to suggest a topic for discussion. **This is a great networking opportunity.**

### **Thank You**

As always, the success of these meetings rely heavily on member participation and engagement. Your feedback, comments and questions are greatly appreciated.

If you would like to review the slides from our July event please visit our Continuing Care Collaborative page on Meditech.com. <https://home.meditech.com/en/d/customercollaboration/pages/contcarecollaborative.htm>

### **Sincerely,**

Cori Callinan - [ccallinan@meditech.com](mailto:ccallinan@meditech.com)
