Continuing Care Medication Management

Continuing Care Requests

- Differentiate order activity by Leave of Absence type - Medical vs Therapeutic
- Maintain a consistent list of medications across the various transitions of care
- Transmit Continuing Care prescriptions
- Continuing Care medication ordering without requiring Meditech Pharmacy Formulary build
- Reconciliation of ordered Continuing Care medication with medication dispensed by outside pharmacy
- Review and accept additions to Continuing Care medication list from non-Continuing Care visits
- Integrated Continuing Care diagnostic ordering solution that utilizes multiple visits

Orders Snapshot

Warfarin Sodium 2.5 mg PO DAILY

One Medication List

- Requires Meditech facility to license Continuing Care and enable Continuing Care Ordering Mode.
- Providers continue to place Continuing Care medication orders using their existing Meditech Pharmacy Formulary build.
 - eMAR/BMV intact for Continuing Care visits.
- Represent the Continuing Care medication on the Home Medication List across all visits - Continuing Care, Acute, Ambulatory, Home Care.
- Workflow allows care providers to manage Continuing Care medications across the continuum.
 - Enhanced Discharge Transfer incorporating Leave of Absence.
- Projected completion date Q1 2021 - Expanse 2.2 only.

Acute Chart - One Med List

The screenshot displays an EHR interface for an acute chart. The top navigation bar includes icons for Return To, Home, Chart, Document, Orders, Discharge, Sign, Workload, Menu, More, and Close. The main content area is divided into several tabs: Diagnostics, Provider Notes, Nurse/Allied Health, Medications, History & Problems, Administrative, Other Clinical, and Health Mgmt. The 'Summary' tab is selected, showing a 'Summary' widget for 06/08/2020 (ADM IN). A red box highlights the 'Home Meds' section, which is confirmed and shows a total of 30 MME/Day. The medication list includes:

MEDICATIONS (INSTRUCTIONS)	LAST TAKEN
Continuing Care	
alprazolam [Xanax XR] (1 mg PO TID)	
aspirin (81 mg PO DAILY)	
calcium carbonate [Tums E-X] (300 mg PO TID)	
docusate sodium (250 mg PO BID)	
lisinopril [Zestril] (5 mg PO BID)	
oxycodone (5 mg PO Q6H PRN)	30 MME/Day

Other sections visible include 'Provider Notes Last 24 Hrs' (No H&P reports recorded), 'Orders Snapshot' (listing OxyCODONE, Calcium Carbonate, ALPRAZolam, lisinopril, Docusate, and Aspirin), and 'Visits' (Future). The right sidebar shows patient information for Phillip Nagle, MRN# CR00100905, and various vital signs and allergies.

Integration with Outside Pharmacy

- Allow Continuing Care medications to be ordered without a Meditech Pharmacy Formulary build while still allowing eMAR/BMV.
- Incorporate e-Prescribing functionality into Continuing Care medication ordering, meeting certification requirements.
 - Receive Drug Plans
 - Display Formulary Benefits and Alternatives
 - Electronic transmission of new Rx, change Rx, cancel Rx
 - EPCS
- Reconciliation of ordered Continuing Care medication with medication dispensed by outside pharmacy.
- Review and accept additions to Continuing Care medication list from non-Continuing Care visits.

A photograph showing a woman in blue medical scrubs standing next to an elderly man in a plaid shirt. She has her hand on his shoulder, suggesting care or support. They are both smiling. The background shows a window with a view of greenery and flowers.

Scheduled Initiatives

Continuing Care - Scheduled

**Therapist Schedule Views: Expanse Patient Care
- LTC Interviews, Design 2020**

**Consume Pt Portal Data to Expanse Patient Care
- Coding 2020**

**Case Management - Community Care Transitions Portal
- Early Adopter Q4 2020**

**Insert Image to a Note from PoC Device - Expanse Patient
Care**

New Handoff Routine & Home Screen - Expanse Pt Care

Continuing Care - Scheduled

Patient Reports

- **Print Assessment from EMR**
- **Include From/Thru Date, Patient Care Report**

Strategic Initiatives

Continuing Care

Strategic Initiatives - Research

- **Easier Navigation of Interventions for a Group**
 - **Use Cases - Online, Point of Care**
- **Resident Appointment/Activities Calendar**
 - **Include Portal Presence**
- **Changes Proposed for Care Plans/Treatment Plans**
 - **Track Progress, Multidisciplinary Plans, Mtgs**
- **Wound Care Management**
 - **Review of 3rd party (3D views, automated measurements, etc)**
- **Point of Care Documentation of ADL's**
- **Manage Undocumented Interventions**

Round Table

Moderator: Leah Fungi
Senior Specialist, MEDITECH

COVID Creativity

Navigating COVID-19: Success and Challenges

- Portal, Virtual Visits, Mobile Devices
- Adhering to changing policies

Co presented by: Michelle Williams, Citizens Memorial

Proactive Preparedness

- Preparedness for your next survey experience
- Reporting Tools

Poll Question

Which best describes your last survey experience?

- A) Needed a lot of work to comply
- B) Needed some work to comply
- C) Overall went well, with some minor tweaks needed
- D) Overall went well

Upcoming Tools

- **From/Thru Date Patient Care Report**
- **Print Assessments from EMR**

Wrap Up, Next Steps

Sharing Contact Information

Future Collaboratives:

- **02/2021, 08/2021**
