

MEDITECH Expanse Ambulatory

A modern, mobile Ambulatory EHR

Expand your view of what an EHR can be with Expanse Ambulatory, a new EHR for a new era. Expanse takes full advantage of mobile technology, untethering you from your desktop so you can tap and swipe through your charts more efficiently. Why shouldn't your EHR be as easy to use as your favorite apps?

Stop spending more than half your work day interacting with the EHR and put your focus where it belongs — on patients. With its mobile, flexible, and intuitive design, MEDITECH's Ambulatory solution won't slow you down or get between you and your patients. They'll be happier. You'll be happier. It's time to get back to practicing medicine.

OUR FOCUS

Software that's better for clinicians, patients, and practices

Intuitive for Clinicians

Expanse Ambulatory was designed by clinicians, for clinicians, to be the most intuitive EHR ever built. We believe your EHR should be as easy and enjoyable to use as your favorite apps.

Convenient for Patients

Patients today look for more than just outstanding care. They expect convenience and digital sophistication. Expanse Ambulatory provides the patient-facing tools you need to set your practice apart.

Profitable for Practices

Today's competitive healthcare landscape means your practice needs to operate at peak efficiency while providing personalized care patients come back for visit after visit.

Expand Ambulatory

Modern tools for the modern practice

CLINICIANS

Personalized, flexible, and familiar tools

PERSONALIZATION

Personal preferences, customizable widgets, favorites, shortcuts and more.

MOBILITY

Grab your tablet and break free from your desk with a fully touch-enabled, web-based EHR. Outside of the office you can get to your EHR wherever you are with Expanse Now, MEDITECH's powerful smartphone app.

INTEROPERABILITY

See the full patient story and provide better quality care through the seamless exchange of clinical data, orders, and results across care settings.

PATIENTS

Technology that connects patients to their care

PATIENT-CENTERED CARE

Increase face time with your patients with a more intuitive EHR that doesn't get in your way. Keep your patients engaged between visits with access to their health records via the Patient and Consumer Health Portal.

PATIENT PORTAL AND MHEALTH APP

Digitally-delivered engagement tools drive loyalty by improving patients' access to care and empowering them to participate in their wellness journey.

HEALTH RECORDS on iPhone®

Allow patients to view and share their health data across participating organizations in one aggregated record.

PRACTICES

Workflows focused on efficiency and value

CARE QUALITY

Support population health initiatives and value-based reimbursement with real-time, actionable patient registries and quality dashboards.

EFFICIENT SCHEDULING

Reduce no-shows and maintain full schedules with intuitive features like drag-and-drop appointments, next-available slot filling, and more.

ADVANCED REVENUE CYCLE TOOLS

Advanced billing, collections and revenue cycle management ensure a streamlined revenue cycle and low AR days.

REPORTING & ANALYTICS

Powerful interactive data views help practices track and meet their performance goals.
