

What sets MEDITECH and Google Cloud apart

When considering the next step for your organization's EHR, ask prospective vendors whether their cloud solution:

- ▶ Delivers the full version of their EHR platform
- ▶ Allows your organization to own its data
- ▶ Provides tools to personalize clinical content and workflows
- ▶ Gives you control over site-specific dictionaries
- ▶ Lets you make your own unique governance decisions
- ▶ Consolidates third-party vendor features, hardware requirements, software licenses, implementation, and service into one contract

In many cases, the answers to some or all of these questions will be **no**.

Want to hear **yes** instead?

Contact your MEDITECH sales rep and ask about our solutions powered by Google Cloud.
