Kim W. Jundt, MD, CMIO - Avera Health

MEDITECH Facilitator

Missy Moquin, Senior Manager

Synopsis

A presentation and educational session on OpenNotes from both a patient's and physician's perspective. Learn about the history and benefits of OpenNotes; the types of notes that are shared, delayed, and confidential, as well as the resources MEDITECH has available for OpenNotes. Lastly, open up discussion with the group to address any questions and discuss individual experiences.

Learning Objectives

- What are OpenNotes and how they can empower patients.
- How Caregivers and patients can benefit from OpenNotes.
- How to get started with implementing OpenNotes with MEDITECH.

Recommended Enrollment

CMIO's, CMO's, Physician Champions/Leaders, Physician Advisory Committee members, and Clinical Information System staff.

This session will apply to the Expanse, 6.x, and 5.x platforms.
