

# MEDITECH

## Doctors' Hours

## Ambient Listening Strategy

---

### **Presenter**

Steven Jones, MD, MPH

### **MEDITECH Facilitator**

Rebecca Lancaster, Senior Manager, Product Management, Strategy Division

### **Synopsis**

In this session, we will explore MEDITECH's ambient listening strategy and discuss various use cases for a mobile dictation solution. We will also discuss use cases for a more AI-integrated ambient listening experience and how that can also tie into our virtual assistant experience.

### **Learning Objectives**

- Understand what ambient listening is and how it can be applied to health care
- Discuss different way ambient listening can be applied to physician workflows
- Discuss MEDITECH's ambient strategy and help develop and refine use cases for physicians

### **Recommended Enrollment**

- Audience - Physicians, CMIOs, Physician Champions, Clinicals, Nursing, and IT staff
- Platform - Expanse
