

MEDITECH

Doctors' Hours

Virtual Visits Now and in the Future

Physician Panelists

Deborah Harrigan, MD, Northeastern Vermont Regional Hospital
Upendra Thaker, MD, Mount Nittany Medical Center

MEDITECH Facilitators

Christopher Monteiro, Manager, Implementation
Jessica Haller, Senior Supervisor, Client Support

Synopsis

The past year has shown immense growth and need for the availability of telehealth solutions. MEDITECH's Virtual Care solutions provide organizations with the ability to utilize virtual visits in multiple settings. This session will quickly review MEDITECH's solutions, but focus on the benefits to the patients. We will discuss ways to refine the use of Virtual Visits in order to help organizations start to identify short and long term strategies in order to be able to incorporate Virtual Care into their telemedicine approach. Hear from our panelists on use cases, where they were able to identify areas to apply Virtual Visits in order to continue to provide a high level of care while keeping patients safe.

Learning Objectives

- Identify different use cases where Virtual Care can be beneficial
- Help formulate a strategy to implement Virtual Care

Recommended Enrollment

- Audience - Physicians, CMIOs, Physician Champions, Clinicals, Nursing, and IT staff
- Platform - Expanse
