

## LSS Data Systems' Medical and Practice Management (MPM) 6.08, Client/Server 5.6.6, and MAGIC 5.6.6 Receive ONC-ACB Certification by Drummond Group

October 10, 2013 -- Minneapolis, MN -- LSS Data Systems' Medical and Practice Management (MPM) 6.08, Client/Server 5.6.6, and MAGIC 5.6.6 have all been tested and certified under the Drummond Group's Electronic Health Records Office of the National Coordinator Authorized Certification Body (ONC-ACB) program. This EHR software is compliant in accordance with the criteria adopted by the Secretary of the U.S. Department of Health and Human Services.

"Earlier this year we certified 16 of the 64 Eligible Provider Clinical Quality Measures (CQM) during our Complete EHR certification. We are now certified for the remaining 48 CQMs for all three of our platforms, which at this time, makes us one of only three EHR vendors to do so" says Jill Somero, LSS Director of Programming & Software Development. "Having certified all 64 CQMs enables our customers to have the needed flexibility in choosing the measures that best meet their patient populations."

Drummond Group's ONC-ACB certification program certifies that EHRs meet the meaningful use criteria for either eligible provider or hospital technology. In turn, healthcare providers using the EHR systems of certified vendors are qualified to receive federal stimulus monies upon demonstrating meaningful use of the technology – a key component of the federal government's push to improve clinical care delivery through the adoption and effective use of EHRs by U.S. healthcare providers.

*These Complete EHRs are 2014 Edition compliant and have been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. These certifications do not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.*

## **About LSS Data Systems**

As a wholly owned subsidiary of MEDITECH, LSS Data Systems develops administrative, financial and clinical software to meet the needs of virtually every major type of physician practice and specialty. Our Medical and Practice Management (MPM) product is a robust, full-featured ambulatory care solution for clinicians and administrative staff in practices and clinics. MPM is the Physician EHR and Practice Management system of choice for MEDITECH facilities across the country and around the world. For more information, please visit <http://www.lssdata.com>.

## **About Drummond Group Inc.**

Drummond Group Inc. is a global software test and certification lab that serves a wide range of vertical industries. In healthcare, Drummond Group tests and certifies Controlled Substance Ordering Systems (CSOS), Electronic Prescription of Controlled Substances (EPCS) software and processes, and Electronic Health Records (EHRs) – designating the trusted test lab as the only third-party certifier of all three

initiatives designed to move the industry toward a digital future. Founded in 1999, and accredited for the Office of the National Coordinator HIT Certification Program as an Authorized Certification Body (ACB) and an Authorized Test Lab (ATL), Drummond Group continues to build upon its deep experience and expertise necessary to deliver reliable and cost-effective services. For more information, please visit <http://www.drummondgroup.com> or email [DGI@drummondgroup.com](mailto:DGI@drummondgroup.com).
